

Lean Six Sigma Awareness Training Course

INTRODUCTION

This introductory course provides an overview of Lean Six Sigma: history, results, roles and responsibilities, the DMAIC methodology, project selection, basic descriptive methods, and tollgates. This course helps participants identify Lean Six Sigma projects, as well as become more valuable resources to a process improvement team. This course highlights how an understanding of Lean Six Sigma can enhance the participant's skill set.

All topics covered in class are taught in a way that anyone, no matter what their skills or experience level, can understand. Our instructors simplify complex topics and present them clearly and concisely. Case studies and in-class labs allow the participant to combine and utilize concepts learned during the course.

Business Benefits of the Training course

Upon completion of the Lean Six Sigma awareness course, the participant has learned:

- The meaning and uses of the Lean Six Sigma philosophy
- Each phase of the DMAIC methodology
- Six Sigma roles
- The basics of project selection
- How to apply the Lean Six Sigma mindset in his or her workplace on a daily basis

COURSE VENUE

All our public courses are being conducted at carefully selected venues at leading hotels and conference locations. Delegate's comfort is our top priority and we ensure that it is well taken care of at all times. Your feedback at the end of each course will help us to meet your expectations next time when you join us for another training session.

IN-HOUSE TRAINING SERVICES

Many organizations have their own unique facilities for training their staff. This course can also be held at your premises. For tailored course, the number of delegates will be dependent on facilities available. Please contact local AFOES office for details.

There is no examination that needs to be completed for certification.

Delegate assessment is carried out by continuous assessment of delegate performance throughout the theoretical and practical phases. Successful delegates will be awarded the certificate of achievement.

For details on Course Fee, exact course location and/or any other specific information, please contact local AFOES office.
